Dear Congressman Leonard Lance,

Hello, my name is (b) (6). I am from Short Hills, New Jersey and am a recent college graduate from Seton Hall University. I am writing to you because I recently tried to enlist in the United States Navy and was denied due to the discovery of amphetamines in my system at the time of medical enlistment. The reason for this was because the prescription drug Adderall I take for my Attention Deficit Disorder (ADD) was in my system at the time. ADD is not a disqualifying condition for the Navy and I have been taking Adderall since I was a small child but stopped upon entering college. I only recently returned to using my prescription to help me better focus on my final year of college and the study for the LSAT exam. Taking it for so many years as a child became second nature to me which is the reason I simply forgot to declare it upon my enlistment. I have submitted the necessary paperwork to appeal the decision, from my Pediatrician, as well as the doctor who prescribed it to me, to the Navy to show my use of Adderall during my academic career. I have only used it for better focus during my academic career and do not need it to function daily. I am writing to you because I was hoping you could help me by speaking to someone in the Department of the Navy and could advocate for my reinstatement into the United States Navy. Anything you could do to better my situation would be highly appreciated. Thank you very much sir, for taking the time of reading my letter and for helping me in my situation. God bless you for serving our country. You can write me back or if easier, can call me at (b) (6) or email at (b) (6). If there is anything else you may need from me, please do not hesitate to contact me. Thank you again.

Sincerely,

(b) (6)
